Act if Cost to Public Is
Not Reduced
CHICAGO, Feb. 22.—Retail meat dealers throughout the country must reduce their prices as the wholesale price of meat declines or else submit their books to Federal agents for investigation of their profits.

This definition of the government's attitude was announced to-night by Attorney General Palmer. Instructions to serve the notice on all retail meat dealers have been sent to every United States District Attorney, he said.

"For three months the price of meat has been falling," said Mr. Palmer. The retail dealers have claimed that their supplies were old stock prehased at the higher prices. The old stocks should be exhausted by this time, and unless the price to consumers comes down we will have to look into the question of the dealers' profits."

Mr. Palmer's pronouncement on the meat price situation followed the publication by the Institute of American Mat Packers of a bulletin announcing the process at the Chicago yards dropped—to pre-war levels for some grades—following the publication.

Although not unexpected, the order has created intense bitterness among the Nationalists. Some Sinn Féiners Bolsheviki Mass say the government is inviting trouble and the general belief is that the risk of disorder will be increased and not diminished. It is pointed out that nearly every recent case of shooting has occurred long before midnight and that the attack made a few weeks ago on Field Marshal Viscount French, Lord Lieutenant of Ireland, was made in broad daylight. Most of the Union-ists approve the decree.
